

DHAC Level 1 Course

Digital Hygiene & Awareness Course

Attend an intensive and comprehensive two to three day Digital Privacy bootcamp to quickly and effectively harden your digital life against all threats.

This course covers full spectrum **digital privacy and security** for a better path forward. Learn about Free and Open Source Software and the Technology that is readily available to the average 'tech normie' to take back our digital sovereignty, and to protect our personal data.

Students will gain a lifetime of access to ongoing content and updates from GrapheneGoat.com, as well as a growing library of digital content and resources. Life changing knowledge for a better future.
